

# HOME LEARNING MAKER MAT

Go on a hunt for magnetic materials! Use a magnet to identify magnetic materials in your home.

Write a book review about a recent read. What did you like most? Was there anything you disliked? Recommend the book to a friend and say why they would like it.

Write a diary entry or create a comic strip imagining you are living in the Stone, Iron or Bronze Age. What might you do during a typical day?

Make a Stone Age 'artefact' or model. You could use clay, playdough or any materials you have at home. Write a museum label to explain what you have created.

Year 3

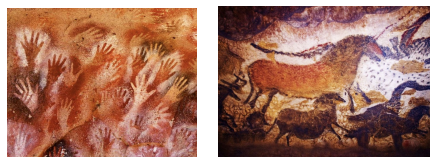

Autumn 2

Learn our song for the winter sounds concert. Perform the song for your family or friends.

Use keynote to help others to be safe online or to share your learning from any subject for example to explain how to find the perimeter of a rectangle.

Create a Stone Age artwork inspired by a cave painting.

Write and share a persuasive speech or create a short film about something you are passionate about!

**Please complete at least three activities and return your projects by Friday 10th December.**
