

HOME LEARNING MAKER MAT

Design a poster for your favourite book, or something you've enjoyed reading recently, using Keynote or PicCollage.

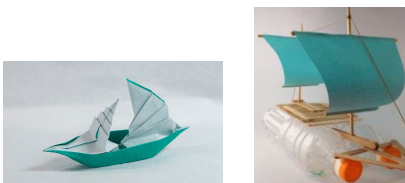

Read another book by R.J. Palacio, the author of 'Wonder', and write a book review to share with others.

Make your own globe labelling the continents, poles, equator, names and positions of the major lines of latitude and longitude.

Explore water resistance by making and testing boats of different shapes and recording which is the most effective in gliding through water.

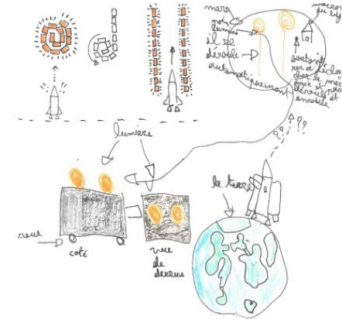

Year 5

Spring 1

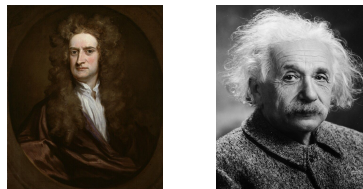

Imagine and draw an invention that collects water on Mars.

Make a biome box project, selecting one of the major biomes of the world and using different materials to show the landscape as well as the plant and animal life that live there.

Research and create a factfile on a famous physicist and mathematician, such as Sir Isaac Newton or Albert Einstein finding out about their work on forces.

Make a personal goals vision board. Include dreams, goals, your future self in 10 years etc.
