

New Wave Federation Precautionary Measures January 2022

Measures are in place to help maintain a COVID-19 safe school environment.

Families are kindly asked to use face coverings when attending school at drop-off and pick-up times.

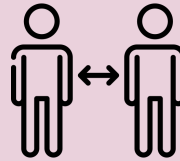

Additional cleaning takes place during the school day with classrooms being cleaned twice each day.

Where possible, PE lessons take place in the school yard. When this is not possible, they are taught in well ventilated halls.

Masks are worn by staff in all cases where it may not be possible to maintain a 2m distance from another adult.

Staff are reminded to maintain a 2m distance between themselves and colleagues, including those in the same phase.

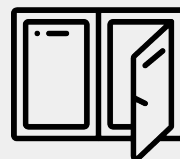

Parents are asked to be mindful of others within the community, taking into consideration social distancing.

Staff and pupils are reminded of the potential risks of travelling by public transport. Measures should always be taken.

Staff and families are asked to test twice weekly from home for coronavirus.

Windows in classrooms remain open to allow ventilation and to maintain a good air flow.
