Year 4 Multiplication Tables Check (MTC)

Dear Year 4 families,

In June 2027, all children in Year 4 will be completing a Multiplication Tables Check. The purpose of the check is to determine whether pupils can fluently recall their times tables up to 12, an essential skill for future success in mathematics. It will also help the teachers to identify pupils who need additional support.

The MTC is an on-screen check consisting of 25 times table questions. Your child will answer three practice questions before moving on to the official check and will then have six seconds to answer each question. The check should take no longer than five minutes to complete.

The children will be regularly practising their times tables in class. Supporting them at home further will ensure that they are able to be completely fluent.

The Year 4 team will be hosting a parent information workshop on **Tuesday 22nd September** at **3.45pm**. You will learn what the MTC looks like, what it is for and effective ways of supporting your children at home.

We look forward to seeing you there.

Kind regards,

Ellie Pratt

Mathematics Subject Lead
